Dear Josh,

I have a favor to ask. I should like to obtain an F+, an F- and an H_{fr} strain of E coli K12. I should greatly appreciate it if you could send these to me.

Sincerely

Abe E.

Dear Abe - I'd be glad to send these to you, but I wish you'd be more specific. For example, would it do you any good if all three strains were H⁻S^R or all prototrophic, etc. Also, though we haven't worked it out, there are several kinds of H_{fr}.

Sincerely,

J. Lederberg
